## A Saimaa Archipelago Escape by Boat

The enchantingly beautiful Lake Saimaa awaits you on an unforgettable boat trip into the heart of its exquisite archipelago, where time stands still and nature demands the attention it deserves. Join us to experience moments steeped in the traditional Finnish summer – lush green nature, clean air, and authentic lake scenery.

We embark on a journey that leads us to the secret realms of the Ringed Seal; we move quietly and respectfully near the Saimaa Ringed Seal's nesting areas, keeping a careful eye on the water's surface, hoping to encounter that charming and lovable Saimaa resident as it flashes through the waves.

Upon arrival, we step onto the island's sandy beach, where an open campfire site and beautiful nature trails await. By the fire, we will savour an authentic archipelago lunch – **fresh, locally caught fish** with sides, gaining its flavour from the open flames and the finest ingredients Saimaa has to offer. After lunch, the island calls you to adventure or relaxation: the scents and trails of the forest and the clear lake water invite you to enjoy the Finnish wilderness. Roam, sit, breathe, and simply enjoy.

On this excursion, you can forget everything else and just be present. Depending on the timing of the trip, the return journey offers a chance to admire the water's surface gilded by the sunset and the horizon stained with purple hues. (Please note: A tidy outdoor toilet/outhouse is available on the island.)

Come and experience Saimaa at its most beautiful.

GROUPSIZE: min. 2 persons, max. 5 persons

PRICE: 320€ per 2 persons; extra person 160€

(incl. boat ride, safety vest, food, towel, guidance)

DISCOUNT: 15% (with code OUTDOORRIGA2026)

## Saimaa Chill Experience

Experience the magic of the Finnish summer evening where the sun barely touches the horizon and the water turns to liquid gold. This guided kayaking excursion is designed for those who seek serenity, nature's wonders, and an authentic slice of the Finnish lifestyle.

### Highlights of the Journey:

We begin from a sheltered, easy-access launch point. Within minutes, the open water gives way to the intimate embrace of the archipelago. The pace is gentle, allowing you to breathe in the world's cleanest air.

Gliding over shallow coastal waters, you can peer into the underwater world. Keep an eye out for curious little perch or a pike lurking among the reeds. We paddle near the protected nesting grounds of the rare Saimaa Ringed Seal. If luck is on our side, you might see one of these curious eyes watching us from the surface.

We weave through islands dotted with charming summer cottages. This is the heart of Finnish culture—the "mökki" life—where simplicity and nature meet.

Our destination is a pristine, handcrafted log sauna nestled on a secluded shore. This isn't just a visit; it's an immersion. Embrace the local tradition by chopping firewood or carrying fresh lake water to the sauna. Or prefer to drift? Lounge on the spacious terrace or feel the soft sand between your toes on the private beach.

Enjoy the soft, humid heat of the wood-fired stove—the löyly—before taking a refreshing dip in the clear lake water. After the full relaxation experience, we take a short, peaceful paddle back to the starting point. You will leave not just with photos, but with a deep sense of mielenrauha—peace of mind.

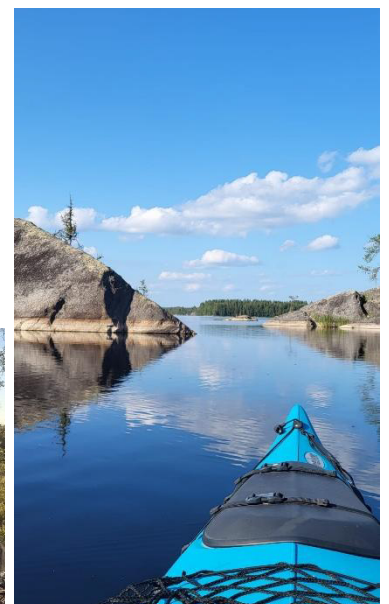

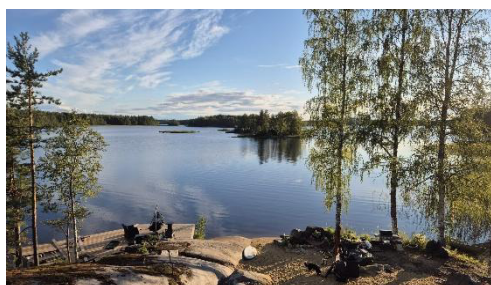

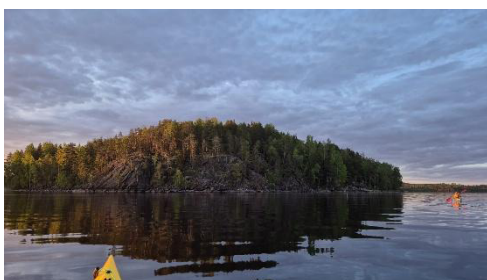

GROUPSIZE: min. 2 persons, max. 6 persons PRICE:

220€ per 2 persons; extra person 110€

(incl. gear, guidance, sauna snacks and soft drinks, towel) DISCOUNT: 15% (with code

## Punkaharju Ridge Road by Bike

Ride through a living painting. This 20-kilometer guided e-bike tour takes you along the iconic Punkaharju Ridge, a narrow ribbon of land winding between two crystal-clear lake systems. With the effortless boost of modern electric bikes, you can focus entirely on the breathtaking views rather than the hills.

### The Experience:

- **Premium E-Biking:** Depending on your preference and the chosen path, we provide high-quality e-mountain bikes or e-fatbikes. The electric motor ensures that the 20-kilometer route feels like a breeze, making this tour perfect for casual riders and adventurers alike.
- **The Route:** We mainly cruise along the smooth, winding asphalt of the historic Ridge Road, but for those craving a bit more nature, we can dive into easy-to-ride forest trails and sandy paths that hug the shoreline.
- **Echoes of History:** Punkaharju isn't just a pretty face; it's a site of deep historical significance. Your guide will share stories of Tsar Alexander I, who fell in love with the area in 1803, and lead you to hidden traces of the Salpa Line—a massive WWII fortification line with bunkers and trenches still nestled in the pine forest.
- **Coffee & Culture:** No Finnish adventure is complete without a coffee break. We'll stop at a charming lakeside summer café or gather around a crackling campfire to enjoy traditional coffee and snacks while soaking in the silence.
- **Dip into the Blue:** The ridge is flanked by water on both sides. We pass several secluded sandy beaches along the way, offering the perfect opportunity for a refreshing wild swim in the pure waters of Lake Saimaa.

### Why This Tour?

This isn't a race; it's an exploration. We move at a relaxed pace with plenty of stops for photography—trust us, you'll want to stop often. It's a seamless blend of fresh air, military history, and the tranquil beauty that has defined the Finnish identity for centuries.

**GROUPSIZE:** min. 2 persons

**PRICE:** 240€ per 2 persons; extra person 120€ (incl. gear, guidance, coffee and snacks)

**DISCOUNT:** 15% (with code OUTDOORRIGA2026)
